## FUTURE DOUBTFUL IN CHICAGO PIT

WHEAT MARKET'S NATURAL TREND UPWARD.

More or Less Manipulation, However, Keeps It Down—Prices Advance.

SLUMP OFF BEFORE CLOSE

Chicago, Nov. 22.—Wheat prices started on the upgrade with the beginning of last week, but after the December delivery had advanced 5 cents from the low point reached November 4 a reaction set in and the advance was practically wiped out at the end of the week. It was on Wednesday that the high point of the week was reached. Shorts were driven to shelter early in the session, but later in the day substantial lines of wheat were dumped into the market and prices declined sharply.

The character of the selling the last few days of the week would indicate that the bulge is over for the present, but the trade has had frequent reason to act with caution in a so-called Armour-Lichstein market. The bulk of the evidence that developed after the advance started indicates that the deal was mainly a Lichstein affair, and that the Armour Grain company was being used for the prestige of its name in frightening shorts into covering. Large quantities of short wheat were covered on Tuesday and a great deal more early in Wednesday's session. There was so much unloading of long December on Tuesday, however, and so much strong selling of all futures Wednesday that the bull forces either gave up the fight or retreated for more advantageous positions. At one point in the contest it looked as though the bulls had been fairly beaten. It was well known that the market was full of resting orders to buy May wheat at 97 1/2 cents on Wednesday. These orders were promptly filled up by sellers, who appeared to be willing to go further if need be.

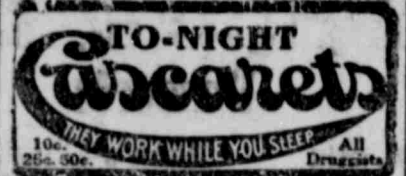

An Able General.

Thereafter the market broke more than 1 cent further and closed rather weak. Nevertheless Lichstein is an able speculative general, and has a way of making the opposing forces work against themselves. In this campaign, however, he is greatly handicapped by the fact that the trade is not large, is entirely of a professional sort and must be constantly applied to keep the same from dying on his hands. Left to itself friends of higher prices think the trend of the market

### GRAY HAIRS BANISHED.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of it souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public can get a superior preparation of sage, with the addition of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only slightly restore the color of the hair but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c and \$1.00 a bottle, or sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by W. J. Gilbert.

### WASH THAT ITCH AWAY.

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25 cent bottle today. We assure you of instant relief. R. W. Walker & Co., Fifth and Broadway.

It would likely be in the direction of gradually hardening prices, but being under more or less manipulation and being daily milked by the big professionals, makes its future doubtful as long as the condition continues. Those in authority, owing to the small volume of trade, are enabled to put prices up or down by concerted buying or selling, having only the scalping pit element to combat. World's shipments are expected soon to fall back to normal conditions and the amount on the oceans should diminish in consequence. It is among the possibilities that the world's movement will show a more marked falling off this year than usual because of the larger marketings heretofore made. That there is a growing and more confident feeling generally is quite true, and it looks now as though the long period of more confidence.

### Buyers' Chief Hopes.

Long continued dry weather both in the winter and spring wheat country west of the Mississippi river and continued light receipts at primary centers are among the chief hopes of the buyers. Drenching rains or reasonable snows would wipe out the weather anxiety, and it is well known that the task of diminishing wheat supplies at terminals by merchandising methods has usually proven too slow to prove very profitable to those who counted upon them. In fact, one of the principal reasons for light primary arrivals is the poor outlet for the wheat. Those of the elevator interests who have room to spare are willing to let the grain take its own time about coming to market. Mills already appear to be well supplied, meanwhile, with a safe and profitable hedging sale against their holdings, the weight of which is being borne by the optimistic speculator.

In so far as United States wheat from east of the Rockies is concerned there is no prospect of export wheat or flour sales until such time as the Canadian supplies are wiped out or their price vastly advanced. At the present rate of sale it would appear as though the Canadian wheat would be in active competition next spring as it is now.

Net changes at the end of the week were slight. May advancing 1/2 cent for the week, while December and July were each 1/4 cent higher.

### Stubborn Strength Displayed.

Stubborn strength was displayed in wheat on Monday. Indications were that the active interests in the market were putting wheat on sale on the weak spots. The buying appeared to be a little lighter in volume than the selling, as was evidenced by the gradually tightening up of offerings and the generally advanced price level. There was fairly large open selling of December and May by the Armour Grain company, and more modest selling on the weak side by a number of prominent commission firms.

On Tuesday shorts in wheat were in a stampede and were given no respite at any time during the session. Prices at no time were appreciably lower than at the close Monday. There was some indication that December wheat had been sold to a very large extent, but in a most quiet way, throughout the session. Strong forces were at work on the buying side in both May and December early, but the active commission trade finally went more largely into May. It was the general impression that the Armour purchases had aggregated about 2,000,000 bushels.

### Values Decline Rapidly.

Highest prices in wheat were made at the opening of the session on Wednesday and the lowest immediately preceding the close. The buying force evidently had spent itself before the session was an hour old. After that values declined rather rapidly. Shorts were vigorously prodded at the outset. Bull houses were buying wheat at stiff prices, and the trade was under the influence of a sharp advance in the Liverpool wheat market. It soon became apparent, however, that this market was not as bare of offerings as on the previous day. This was sufficient proof that a large part of the short interest had been eliminated. Although the market was given quite good support there was enough influential selling to fill the supporting orders or force their withdrawal. A number of shorts who had sold early were buying leisurely at the last, but were not absorbing a great deal of wheat. Numerous changes in front were made in the wheat market on Thursday. Trading continued with professional lines, scarcely any interest being developed on the part of the nonprofessional speculators or

### Try This Home-Made Cough Remedy

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep-seated cough in less than 24 hours. Splendid, too, for whooping cough, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough. This recipe makes more and better cough syrup than you could buy ready-made for \$2.50. It keeps perfectly and tastes pleasant.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in gualic acid and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and Sugar Syrup (or strained honey) has proven so popular throughout the United States and Canada, that it is often imitated. But the old, successful formula has never been equalled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

investors. It was the popular belief at the last that the Lichstein forces had been the dominant ones during the week, supporting the market on weak spots and supplying it when the demand from shorts was the most urgent. A large line of wheat was covered by a big local speculator who had been one of the heavy sellers of the previous day. It was on this buying that the highest prices were reached.

### Corn Goes Lower.

Bears ruled the market on Friday, notwithstanding many Liverpool messages claiming fresh reports of injury to the Argentine crop. The local explanation of the dip in prices here was a rather sharp break in the corn market, which induced selling pressure in wheat futures.

Corn traders were surprised from day to day to find the weather map all over the big shipping states almost perfect for the securing of the great crop of the year and preparing it for market. The trade expects a great increase in the marketing of new corn the balance of the month. This will count against cash and futures. Corn was 1 cent lower for the week all along the line.

Oats prices faintly echoed the fluctuations in other grains, showing some strength early in the week, but later becoming rather heavy. There was little doing either speculatively or in a shipping way.

### Good Results Always Follow.

The use of Foley Kidney Pills. They are upbuilding, strengthening and soothing. Tonic in action, quick in results.—Gilbert's Drug Store.

## The Evening Sun's Daily Markets.

### LOCAL PRODUCE.

(Corrected daily by Woolfolk, Bowers & Co.)	
Eggs (dozen) .....	25c
Spring chickens (pound) .....	7 1/2c
Hens (pound) .....	7c
Geese (pound) .....	7c
Butter (packing stock) .....	17c
Turkeys .....	14c

### LIVESTOCK.

Louisville, Ky., Nov. 22.—The receipts of hogs were 2,082 head, as against 2,465 a week ago, 8,642 a year ago and 3,945 two years ago. The market was late in opening, and prices dropped 15¢ to 20¢ under persistent hammering from the buyers and unfavorable reports from other markets. Selected hogs, all weights, selling at \$7.10, with the rough hogs out at \$6.50 down. The pens were well cleared but the market closed slow and outlook uncertain.

The receipts of cattle today were 1,760 head, as against 3,147 last Monday, 2,029 a year ago and 3,285 two years ago. There was a pretty good crowd of local traders and butchers on the yards and some foreign buyers, but the shortage of 1,400 cattle as compared with last Monday, did not stimulate the trade as much as might have been expected, and had there been anything like a liberal supply of cattle on sale, the prices would have dropped considerably. Choice, light butcher cattle were ready sellers, scattering sales being made at slight advances, but the medium and common kinds are dull and draggy and the tendency a little lower. The best feeders and stockers were in fair request, but buyers wanted to shade the prices. Medium, plain and common grades were dull and lower. Good inquiry for good, heavy slop steers. Common

and light sloppers were dull and a shade lower. Bulls steady, canners dull, milk cows unchanged. Not many heavy steers here. Feeling weak to a shade lower.

**Calves.**  
Receipts 97; the market ruled dull, bulk of the best 8¢ 3/4c, medium 6¢ 5c, common 2 1/2¢ to 6c.

**Sheep and Lambs.**

Receipts 268 head. The market ruled about steady with the best fat lambs 5¢ 5/8c; medium and culls, 3¢ 5c. Fat sheep 2 1/2¢ to 3c down, common sheep 1¢ 2 1/2c.

Notice—There will be no livestock market on Thursday, November 24, Thanksgiving Day.

St. Louis, Nov. 22.—Cattle—Receipts 6,000; market 10c higher; prices \$3.75 to \$3.85; calves in carload lots \$6.50 to \$9. Hogs—Receipts 6,500; market weak; pigs and lights \$6.75 to \$7.20; packers \$6.85 to \$7.25; butchers and best heavy \$7.10 to \$7.30. Sheep—Receipts 300; market was strong; native muttons \$3.50 to \$3.75; lambs \$5.50 to \$6.50.

### TOBACCO MARKETS.

Louisville, Ky., Nov. 22.—The offerings on the local breaks follow: 736 burley; dark, 5; original inspection, 602; reviews, 139; total, 741. Planters' Central warehouse sold 133 hds. burley at \$5.60 to \$16.50; 5 rejections. Farmers' warehouse sold 99 hds. burley at \$6.10 to \$15; 4 rejections. The Home warehouse sold 54 hds. of burley at \$6.60 to \$13. The State warehouse sold 70 hds. burley at \$6.50 to \$16.75; 4 rejections. The Kentucky warehouse sold 75 hds. burley at \$5.95 to \$14.25, and 5 of dark at \$6.50 to \$9.90. The Ninth street warehouse sold 140 hds. burley at \$6.25 to \$17.15; 15 rejections. The Louisville warehouse sold 87 hds. burley at \$5.05 to \$17; 5 rejections. Total offerings last week were 3,

## TRUNK MYSTERY

WILLIAM LEWIS DISAPPEARED ON EVE OF MARRIAGE.

Although Lewis Disappeared Five Years Ago Placene Has Never Heard Aught of Him.

New York, Nov. 22.—An unusual mystery is believed to lie behind the disappearance of William Lewis, said by Philip Meagher and his wife to be the owner of the trunk in which there was found on last Thursday the body of a person who apparently had been dead for eight years.

Lewis was said today to have disappeared in January, 1905, and three hours before he was to have been married to Miss Ellen Enright, a nurse.

This William Lewis lived in Harlem and was an accountant and a man of some means. The William Lewis who came to live with the Meaghers in January, 1905, and remained there until July of that year, when he disappeared, was known as a waiter in cheap restaurants.

A photograph of the Harlem William Lewis was seen by the Meaghers today and they recognized as a likeness of the Lewis they knew. Miss Enright never heard from her fiancé after his disappearance.

### Hexamethylenetetramine

Is the name of a German chemical, one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy promptly at the first sign of kidney trouble and avoid a serious malady.—Gilbert's drug store.

### SAN ANTONIO 136,985.

Directory Figures Make the Census Count of 96,614 Look Small.

San Antonio, Tex., Nov. 22.—Contrary to the recent census, giving San Antonio a population of 96,614, the new city directory places the population at 136,985, according to the actual count of names and figures appearing in the book. Counting those persons in the employ of the United States at Fort Sam Houston, principally, and the students registered in the private schools, the total population of the city and suburbs is 141,596. For nearly one year trained directory men have been at work on the compilation. The publishers say the count is accurate.

### A Household Medicine

To be really valuable must show equally good results from each member of the family using it. Foley's Honey and Tar does just this. Whether for children or grown persons Foley's Honey and Tar is best and safest for all coughs and colds.—Gilbert's drug store.

## MEN'S SHOES SURPRISING VALUES

We put on sale Wednesday, Nov. 16th, A Line of Men's Six months' shoes with the following guarantee, and backed by the manufacturer.

"We hereby agree to replace this pair of shoes, free of charge if either the soles or uppers wear out in four months. We agree to refund the wearer TWO DOLLARS in cash if either soles or uppers wear out in the fifth month. We agree to refund to the wearer ONE DOLLAR in cash if either soles or uppers wear out during the sixth month from date of purchase, by the wearer."

Prices, \$4.00. Gun Metal, Vici, Box Calif.

J. A. RUDY & SONS.

833 hds. Of this number 3,440 were burley and 393 dark. The cold, harsh weather that has been prevalent for several weeks has curtailed receipts to such an extent that there were only 158 hds. of new burley sold this week. The average of the sale was \$7.07. Quality and condition were very poor; all were nondescript in character of a dingy color, showing a great deal of house burn.

Clarksville, Nov. 22.—The tobacco market is quiet. Receipts were light for the week. Four hogheads of old tobacco were sold at top prices. The weather remains cool and dry, preventing the handling of tobacco at the barns, hence the inactivity of the market. The buyers are anxiously awaiting a season to bring the tobacco in order. For old tobacco nominally, we quote: Travy, \$5 to \$5.50; low lugs, \$5.75 to \$6.25; common lugs \$6.25 to \$6.75; medium lugs, \$6.75 to \$7.50; good lugs, \$7.50 to \$8.25; low leaf, \$8 to \$9; common leaf, \$9.50 to \$10; medium leaf, \$10.50 to \$11.50; good leaf, \$12 to \$13; fine leaf, none offering; choice selections, none offering.

Hopkinsville, Ky., Nov. 22.—Dry weather prevented the opening of loose sales on the local tobacco market last week, the tobacco being so dry that none of it could be brought to market. Consequently there was no sale at all. Another effort will be made next Wednesday to hold a sale, but unless there is rainy and warmer weather between now and then another failure will be the result. From present indications the rain will not be forthcoming, and even if it does only a small amount of tobacco could be prepared and hauled to market in the short time that intervenes. So it now looks as if it will be some days yet before the market will be able to open in earnest. In the meantime there is no appreciable change in the condition. Some scattering sales of small crops are reported at prices averaging about \$8 per hundred.

In Stam men of the high and middle classes as well as women wear long cotton stockings reaching high above the knee.

A man worships his brains—especially if he hasn't any.
